Huntsville Center contractor employees killed in Iraq identified

HUNTSVILLE, Ala. — Two U.S. Army Engineering and Support Center, Huntsville contractor employees killed in Iraq have been identified.

Daryl De Thierry, 34, from New Zealand, and Serupepeli Vunisa Buruso, 33, from Fiji, were killed July 9 when the vehicle they were riding in was struck by an Improvised Explosive Device. De Thierry and Vunisa Buruso worked as security specialists for Armor Group Iraq, which is headquartered in London.

This brings the number of contractor casualties killed while working for the Coalition Munitions Clearance Program since September 2003 to 38.

“Our condolences go out to the families,” said Bill Sargent, program manager, Coalition Munitions Clearance Program. “Our personnel are highly trained and experienced and are doing a superb job, but it remains a very dangerous mission.”

The incident is under investigation.

Huntsville Center is the U.S. Army Corps of Engineers’ Center of Expertise for Military Munitions. Huntsville Center’s Coalition Munitions Clearance Program is responsible for receiving, transporting, segregating and destroying captured or any other munitions posing a danger in Iraq. Storage and disposal of the ammunition is performed at several locations throughout Iraq. To date,
